Decimal Machin List

31<sup>st</sup> December 2016

© 2016

Edited by Roy Gault.

This set of 'Decimal Machin' pages for the *New Illustrated Catalogue of G.B. Perfins* ('NIC' for short) has been compiled from the fine detail from Barrie Williamson's Machin Study, along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list. Each list of dies and stamps for each Catalogue Section is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' (as appropriate) which are listed in the main body of the 'NIC'. For simplicity they are often recorded in the 'NIC' as 'various'.

**Machin Decimal Issues.**

The following list of **93** dies and **1,412** stamps is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Please note:**

- 'ss' against any denomination refers to 'Security Slits'.
- 'SA' refers to Self Adhesive stamps.
- 'S' and 'L' are Small and Large 'Price in Proportion' (PiP) stamps.
- 'SD' Source and Date codes 'hidden' in 'iridescent' overprint on Self Adhesive stamps.

Any additions or amendments to this list, please inform either the Catalogue Editor (address as per the Perfin Society Bulletin), or e-Mail Barrie Williamson at [bwilliamson10@sky.com](mailto:bwilliamson10@sky.com)

**Machin Decimal Issues.**

The following list of **35 dies** and **491 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Machin Decimal Issues.**

The following list of **22 dies** and **386 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Machin Decimal Issues.**

The following list of **65 dies** and **1,122 stamps** is an amplification of the Machin issues 'W' and 'W(ell)' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Please note:**

- 'ss' against any denomination refers to 'Security Slits'.
- 'SA' refers to Self Adhesive stamps.
- 'S' and 'L' are Small and Large 'Price in Proportion' (PiP) stamps.

**Machin Decimal Issues.**

The following list of **91 dies** and **1,344 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Machin Decimal Issues.**

The following list of **30 dies** and **409 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**

**Machin Decimal Issues.**

The following list of **5 dies** and **61 stamps** is an amplification of the Machin issues 'W' and 'W(ell)' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **30<sup>th</sup> September 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

**This list is correct to 31<sup>st</sup> December 2016.**
